Van Bragt
Holland Tulip Farm

MEMBER

Holland, Michigan

Instructions

Our 1950 listings represent a sincere effort to catalogue both the old favorites and latest additions. All the varieties listed are suitable for planting in the forty-eight states, unless stated otherwise.

We have tried to make this listing complete, but will be glad to obtain unlisted varieties when possible, at your request.

Your order will be filled with only the high quality bulbs that produce satisfying results.

CONDITIONS OF SALE

Orders amounting to \$3.00 or more will be shipped prepaid if payment in full is received before shipment. Orders for less than \$3.00 must include 15 cents to cover handling costs. Make payment by check or money order. Unregistered currency payments by mail at your own risk.

Orders received before July 10th benefit by a 10% discount, and orders received not later than August 10th benefit by a 5% discount. Payment in full must accompany your order to qualify for a discount. **FOR OUR MUTUAL PROTECTION AND SATISFACTION — ORDER EARLY!**

Guarantee

We unconditionally guarantee every bulb we ship to be strictly large size, and to be absolutely true to name. All bulbs shipped will grow and bloom under ordinary conditions. We have, however, no control over unfavorable weather or soil conditions, improper planting, neglect, moles or mice, and, therefore, cannot assume responsibility after they reach you. Stock not reaching you in first class condition should be reported within ten days after received, and will be replaced free of charge if so received. After ten days it is mutually agreed that stock is satisfactory. Do not return bulbs or plants unless so instructed by us.

VAN BRAGT BROS.

New Varieties

This year marks the first listing of these five new parrot tulips. They are still difficult to obtain, and orders must be placed before July 25th. Their exquisite petals of delicate hues will assure them of wide acclaim.

BLACK PARROT. Velvet maroon black.	\$2.00 each	3 for \$5.75
IVORY PARROT. Cream with soft yellow glow. 27".	2.00 each	3 for 5.75
ORANGE PARROT. Bright orange-scarlet. 20".	\$6.00 each	
TEXAS GOLD. Clear yellow. 24".	\$15.00 each	
VAN DYK. Large brilliant American Beauty red, base blue-white. 24".	\$50.00 each	

Five Giant sized newcomers to the popular Mayflowering group are among the most recent additions this year. Tall and stalwart as an Indian brave, enormous flowers of typical Indian colors. Orders must be placed before August 15 to assure delivery.

	3	12	100
CHAPPAQUA. Dark violet rose, yellow base. Inside carmine rose. 36".	\$1.20	\$4.00	\$28.00

SYMPHONY. Brilliant rose-carmine, large flower. Excellent double. 24".	.45	1.50	11.00
UNCLE TOM. Deepest dark glossy red. Very attractive large flower. 21".	.60	2.00	15.00

Botanical Tulips

These tulips are adaptable for rock gardens due to their short sturdy stem and their permanency. Most effective display can be accomplished by group plantings. When planted in well drained soil, the tulip requires no further care, and will be a never ending source of pleasure.

CLUSIANA. "The Lady Tulip." Outer petals are bright cherry-red, inner petals creamy white with violet base. 10".	.55	1.80	13.00
EICHLERI. Splendid large, crimson-scarlet flower, yellow and black center. 10".	.55	1.80	13.00
FOSTERIANA, PRINCEPS. Brilliant scarlet, large strong flowers. Excellent. 15".	.60	2.00	15.00
FOSTERIANA, RED EMPEROR. Glossy orange-scarlet, yellow base. Huge blossom. 15".	.60	2.00	15.00
KAUFMANNIANA. "The Water-lily Tulip." Creamy white tinged rosy red. 6".	.35	1.25	9.00
PRAESTANS FUSELIER. Very attractive and brilliant orange-red. Several attractive large flowers on a single stem. Truly outstanding. 14".	.50	1.60	12.00

THERESE PARROT

Parrot Tulips

A "Show Tulip" wherever grown, delicate petals give an "old lace" effect. These tulips have stout stems that provide ample support for the extra large blossoms produced. They require minimum care.

	3	12	100
ALLARD PIERSON. (Miss Kay). Deep blood-red, blue base. 26".	.70	2.25	17.00
BLUE PARROT. Bluish heliotrope. Excellent. 25".	.45	1.50	11.00
DISCOVERY. Violet-pink with silvery white edge. 26".	.60	2.00	15.00
FANTASY. Soft salmon-pink with light green flames. 22".	.50	1.60	12.00
FIREBIRD. A new-comer in deep coral-red. Good quality. 22".	.90	3.00	20.00
GADELAN. A blend of blue and purple, with blue-green markings, inside bright violet purple, white center, black anthers.	.75	2.50	19.00
SUNDEW. (Crispa). Bright red, unusual, but attractive. 20".	.40	1.35	10.00
SUNSHINE. Clear golden yellow, deeply lacerated and cut. 18".	.75	2.50	18.00
THERESE. Bright cochineal-carmine with parrot-green markings on the outside. Inside vivid cerise-scarlet, white center, tinted blue. Superior quality. 22".	.60	2.00	15.00
VIOLET QUEEN. (Opal Queen). Delicate pearly blue. 24".	.75	2.50	18.00

Van Bragt's Rainbow Mixture

	.40	1.35	10.00
PEACH BLOSSOM. Bright rose-pink, deepening to carmine-rose as it ages. 12".			
	.45	1.50	11.00
SCHOONOORD. The best white among the double early. 12".			
	.45	1.50	11.00
TRIUMPHATOR. Bright-pink (deep rose). 12".			
	.50	1.60	12.00

Daffodils or Narcissus

There is no question of the popularity of the Daffodil and Narcissus for Spring bulb gardens. With practically no care they provide color and charm at a time when a bit of Spring cheer is so welcome. Plant freely throughout your garden, and in spaces unsuitable for other flowers. Their ability to become "naturalized" and reappear year after year adds to their popularity.

DAFFODIL CLASSIFICATION

TRUMPET. Trumpet is as long or longer than the petals (perianth).

INCOMPARABILIS. The crown or cup measures from one-third to nearly the length of the petals.

LEEDSI. Petals white; cup short, mostly cream-white.

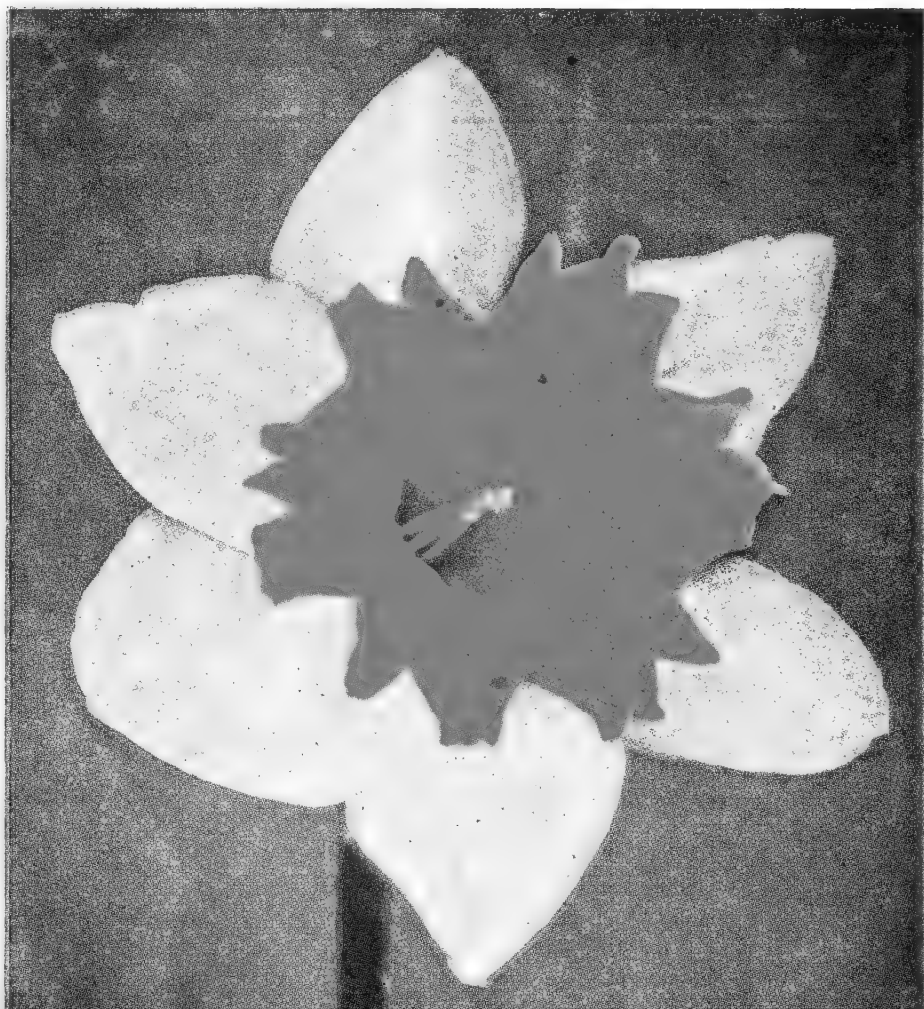

BARRI. Cup or crown is less than one-third the length of petals.

POETAZ. Bunch-flowering and definitely fragrant.

POETICUS. White petals with flat cups of yellow or red.

WHITE	3	12	100
ACTAEA. (Poeticus). Pure white perianth with scarlet-rimmed eye.	.50	1.60	12.00
BEERSHEBA. (White Trumpet). Pure white, well proportioned. Very good.	1.00	3.25	22.00
DAISY SCHAEFFER. (Leedsii). Giant pure white; cup primrose to light canary-yellow.	.55	1.80	13.00
DAPHNE. (Double). Outstanding pure white.	.55	1.80	13.00
DICK WELLBAND. (Incomp). Pure white perianth, brilliant flame-orange cup.	.50	1.60	12.00

Large55	1.50	5.50
Medium35	1.00	3.75

Colchicums

The novel and unique colchicum is practically a miracle flower. It will produce a colorful blossom indoors without soil or water. After the blossoms fade, plant them outdoors, and in the Spring they will appear in luxuriant green foliage. Remove the bulbs indoors after the foliage has disappeared, and they will repeat their wondrous feat again. These bulbs make fine gifts for many occasions. No orders accepted after July 31.

VIOLET QUEEN. Lilac, tinted.			
	.50	1.40	5.00

Planting Instructions

TULIPS

Any ordinary garden soil is suitable for Tulips, providing it is in good condition and well drained. If the soil is heavy, mix with sand or plant the bulbs in a layer of sand. If the soil needs enriching, use WELL ROTTED or dehydrated cattle manure or any good garden fertilizer, being careful to follow instructions on the containers of the fertilizers. Work the fertilizer through the soil, or spread it over the top, allowing it to soak during the winter months.

Plant from October first until the ground is frozen and no longer workable. We will ship your bulbs in plenty of time for planting. In southern United States the planting time extends into December and January. We suggest that you refrigerate the bulbs in areas where freezing temperatures are not experienced. Four to eight weeks before planting, place the bulbs in your refrigerator. This allows the bulb to form a good root system which is essential to produce a sturdy plant.

When the ground is frozen solid, not before, cover with a thin layer of straw or hay. In the spring keep the soil loose and clean. After the flowers are through blooming, remove the seed pods. Allow the foliage and stem to turn brown before you lift the bulbs. Dry the bulbs inside, such as garage, shed, etc. When dry, store in a cool, dry place, making sure that no sand remains. Prevent moulding by storing them in thin layers in open crates, or onion and orange sacks. Remove roots and loose hulls before planting again in the fall.

Botanical Tulips may be left in the ground for years if they appear to have found conditions to their liking. This depends greatly upon the place they are grown, and your results obtained from previous experience.

HYACINTHS

Plant hyacinths as soon as possible after receipt, preferably in a light sandy soil, about 4-5 inches deep from top of bulb, and 5-7 inches apart. In heavy clay, we recommend loosening soil with sand or sandy mixtures. Hyacinths require a slightly heavier protection during the winter, otherwise their culture is like tulips. Drainage, as with tulips is most necessary.

MINIATURE BULBS

Bulbs such as *Chionodoxa*, *Scilla*, *Muscari*, *Crocus*, etc., should be planted 3-4 inches deep, and may be left undisturbed indefinitely. For this reason they can be planted in most any spot in your garden, such as rock gardens, borders, between shrubbery, wooded sections, etc. They require little or no attention.

In many cases *Crocuses* are planted in lawns. If such is the case, we recommend for best results, not to cut lawn until about 3 or 4 weeks after they are through blooming.

NARCISSI OR DAFFODILS

Narcissi do well in almost any soil but prefer a deep loam. Do not use any manure or strong fertilizers. They will grow equally well in full sun or in the shade, and should be planted 5 to 6 inches deep and about 6 inches apart. They can be left undisturbed for 3 to 4 years. If you wish to transplant them, do not store, but divide and replant at once while they are still moist. If you must store them, keep in a cool, airy place, as hot, dry temperatures cause a disease called "basal rot" which destroys them very quickly.

THINGS YOU SHOULD NOT DO

Do not grow Tulip bulbs year after year in the same place. Sooner or later they may be attacked by a fungus called "fire blight," which attacks both foliage and flowers. Either change the soil or the location; in other words, follow the principle of crop rotation.

Do not let seed pods remain on the stems after flowers have faded — it weakens the bulbs.

Dutch Hyacinths

Early in the Spring, as the snow begins to disappear, Hyacinths will brighten your garden with an abundance of color and delightful fragrance. A perfect flower for borders, or in small groups about the yard. Once planted, they require a minimum of care.

Available in the six most desirable colors: White, Pink, Red, Sky-blue, Dark Blue and Yellow. We furnish large bulbs only, no miniature bulbs available.
